Lebanon | +961 76 915 446 | aliazzam20@gmail.com | [LinkedIn](#) | [My Portfolio](#)

OBJECTIVE

Results-driven Full-Stack Developer and Cybersecurity Ambassador with expertise in React.js, Flutter, Firebase, and Laravel. Skilled in delivering production-ready applications featuring AI, OCR, real-time systems, payment processing, and cloud services. Combines full lifecycle development proficiency with cybersecurity best practices, actively promoting security awareness through Semicolon Academy. Seeking opportunities to build scalable, secure, and user-centric digital solutions that drive measurable business impact.

EXPERIENCE

Ambassador – Semicolon Security (CyberSecurity Community) Sep 2025 – Present

- Representing Semicolon Security & Academy as a CyberSecurity Ambassador, Promoting security awareness and best practices.
- Organizing and participating in CyberSecurity events, CTF competitions , and workshops.
- Engaging in community outreach to spread awareness about cybersecurity practices .

Full-Stack Developer Intern – Violet Pro (On-Site, Lebanon ,Tyr) Jan 2026 – Feb 2026

- Developed a **Gas station Software** and a **Mobile Application** as part of real-world project .
- Worked on **WhatsApp bot development** for automated communication .
- Performed **security system testing** and prepared a security report (**Web Penetration Testing**) .
- Demonstrated strong understanding of **system architecture and project workflow**.
- Achieved **97% (GPA: 3.9/4) task completion** with consistent performance and high-quality results.

Frontend Developer Intern – Dalili Company ,UAE (Remote) Dec 2025 – Feb 2026

- Built responsive web application using **React.js,JavaScript(ES6+),HTML5,CSS3** .
- Integrated **REST APIs** and handled dynamic data rendering efficiently.
- Collaborated in an **Agile environment** with designers and backend developers.
- Applied **component-based architecture** , Git/GitHub , and improved **UI performance & UX**.

Full-Stack Developer Intern – Violet Pro — Lebanon, Tyr June 2025 – Aug 2025

- Completed a 2-month internship while working on my Master's senior project. Handled back-end services and Firebase database integration.
- Built a full-stack **Car Reservation App (Drive Wise)** with:
- **Admin Web Platform:** React.js + Firebase .
- **Mobile App for Users:** Flutter + Firebase .
- **Key Features:** Email OTP (EmailJS), OCR for driver's license (Google Cloud Vision API), Google Maps Geolocation, Chatbot (Gemini API), real-time notifications (status updates, reminders, car replacement), digital contract, etc.

Mobile Application Developer (Freelance) Mar 2024 – Present

- Developed mobile apps using Flutter.
- Handled back-end services and Firebase database integration.

Web Developer (Freelance) Mar 2024 – Present

- Built custom websites for clients using modern stacks (React.js, Laravel, etc.).

IT Intern – Imam al-Sadr Foundation— Lebanon, Tyr May 2023 – July 2024

- Contributed to internal software projects using VB.Net, Java, and Python.

- Handled database administration and hardware maintenance.

EDUCATION

Master of Science in Information System Engineering	Jan 2024 – Nov 2025
Lebanese University – Faculty of Technology – Saida	
Bachelor of Engineering – Technology and Science of Information Systems	Sep 2020 – Oct 2023
Lebanese University – Faculty of Technology – Saida	

CERTIFICATIONS

- **SE Factory Training Program.** Apr 2025 – July 2025
Phase 1: Flutter+ GenAI, Prompt Engineering + Employability Skills.
Phase 2: Machine Learning + DevOps, MLOps, DataOps + Time Management, Communication.
- **CyberSecurity Course – SemiColon Academy.** Mar 2025 – June 2025
Topics: Cryptography, Application Security, Reverse Engineering.
Participated in a CTF in collaboration with Google Developer Group and SemiColon.
- **Full Stack Web Development Bootcamp – ESA Coding Lab (France).** May 2024 – Dec 2024
Completed intensive training; built 3 large-scale web apps.

PROJECTS

- **Drive Wise – Car Reservation App (Master's Project)** 2025
Full-stack car reservation platform developed for my Master's thesis with admin web panel (**React.js + Firebase**) and user mobile app (**Flutter + Firebase**), featuring OTP authentication, OCR license verification, Google Maps integration, AI chatbot, real-time notifications, and digital contract management, etc.
- **ChronoTrack HR Attendance System (Frontend Only – Freelance Project)** 2025
Employee attendance tracking web interface with check-in/out functionality and salary calculation (**React.js**).
- **Restaurant Mobile App (Freelance Project)** 2025
Offline-first mobile app for restaurant with menu browsing, cart, and Stripe payment integration (**Flutter**).
- **Food Delivery Website (Freelance)** 2025
Restaurant food delivery website similar to Toters (**React.js, Laravel, MySQL**).
- **Other Project : Portfolio Website (React.js), Mobile Notification App (Freelance) (Flutter, Firebase), Chalet Reservation Website (HTML, CSS, JavaScript, PHP), Gym Management Website (MERN Stack), Finance Tracker Web App with AI Integration (React.js, Gemini API, SQL).**

SKILLS

- **Languages:** Python, Java, C, C#, VB.Net, JavaScript, PHP.
- **Frameworks & Tools:** React.js, Flutter, Laravel, ASP.Net, Android Studio, Firebase, SQL Server, MongoDB, GitHub, Docker, Figma, Kali Linux.
- **Expertise:** AI/ML, Neural Networks, DevOps, MVC Architecture.

LANGUAGES : Arabic: Native | French: Fluent | English: Basic .
